Routine Food Inspection

Destiny High School
Destiny High School
7210 N 76th St
Milwaukee, WI 53223

October 31, 2007

The following list of violations of the Wisconsin Administrative Code as adopted by reference in the Milwaukee Code of Ordinances Chapter 68, and/or other City ordinance(s) must be corrected as soon as possible but not later than the date specified. A re-inspection fee may be assessed if the violation is not corrected by that date. An inspection fee may be charged for any repeat violations.

Fee Amount: \$0.00

Code Number	Description of Violation	Correct By
6-301.11	There is no soap available at the pre-wash sink in the back ware wash area. Hand soap needs to be available at all times at all hand sinks for hand washing. Monitor and refill immediately when empty.	10/31/2007
6-301.12	No single-use hand towels are available at the hand sink or at the pre-wash sink. Supply all sinks designated as hand wash sinks with single-use hand towels at all times. Monitor and refill immediately when empty.	10/31/2007
4-701.10	The setup of the ware wash sinks for washing wares, equipment, and utensils is wrong. The far left sink is the prewash/handwash sink. The next sink should be filled with soap and water. The third sink is to be filled only with clear water for rinsing. The farthest right sink is to be filled with water and sanitizer (if using bleach, concentration should be between 50ppm and 100ppm) for sanitizing. All equipment, utensils, and wares are to be air-dried (no drying with towels). Instruct all employees on the proper setup of the ware wash sinks.	10/31/2007

Inspection Notes

Notes: FRP board is in the process of being installed. Ensure that all gaps and edges are sealed when installing the FRP board. This will create a smooth and cleanable surface and will prevent water or debris from dripping into the backside of the frp board.

Continue taking logs of temperatures. Temperatures should be taken at receiving time, serving time, and holding times.
